Make in India: Issues and Challenges Dated: 04-03-2017

Brief Report

Make in India was launched by Prime Minister in September 2014 against the backdrop of this crisis and quickly became a rallying cry for India's innumerable stakeholders and partners. It was a powerful, galvanizing call to action to India's citizens and business leaders, and an invitation to potential partners and investors around the world. But Make in India is much more than an inspiring slogan. It represents a comprehensive and unprecedented overhaul of outdated processes and policies. Most importantly, it represents a complete change of the government's mindset – a shift from issuing authority to business partner, in keeping with Prime Minister's tenet of 'Minimum Government, Maximum Governance.

The make in India initiative started by government of India helps to facilitate investment, foster innovation, enhance skill development, protect intellectual property, build manufacturing infrastructure. For contribution of at least 25% of GDP by 2022 in manufacturing sector growth should be 12-14% Per annum higher than the GDP rate. The share of manufacturing in India's GDP has stagnated at 15-16% since 1980 while the share in comparable economies in Asia is much higher at 25 to 34%. The advancement of manufacturing capabilities is directly linked to increasing economic prosperity for a nation and its citizens. With financial assistance of Rs. 1,45,000 a national seminar was organized on 04-03-2017.

ISEC former Director Dr.Gopalkadekodi was the Chief Guest. Dr. R.L.Hyderabad was the Keynote Speaker. Dr.G.T.Govindappa, Dr.Ramesh. Dr.Nayak, Air Commodore (Rtd) Havaladar Dr.N.G.Chachadi, Dr.M.M.Moulvi were the Resource Person. Selected papers were published in an International Journal.

Skill Development in Higher Education: Issues & Challenges
Brief Report: 19-03-2019

India, at present, is recognized as one of the youngest nations in the world with over 50% of the population under the age of 30 years. It is estimated that by about 2015, India will have 20% of the world's total workforce. In order to harness the full demographic dividend, India needs an educational system which is of high quality, affordable, flexible and relevant to the individuals, economy and to the society as a whole. Skills and knowledge are the driving forces of economic growth and social development for any country. Presently, the country faces a demand – supply mismatch, as the economy needs more 'skilled' workforce and also the managers and entrepreneurs than created annually. In the higher education sphere knowledge and skills are required for a diversity of employment needs in the services, education, health care, and manufacturing sector etc. Potentially, the target group for skill development comprises all those in the labour force, including those entering the labour market for the first time, those employed in the organized sector and those working in the unorganized sector.

The skilling of youth at higher education level has three tier approaches being implemented in the country; the first one is to incorporate skill component in the regular higher education courses, second is to offer full-time skill based Degree / Diploma courses with major skill credits, and third is to offer short-term skill based courses, orientation and finishing schools.

Role of Higher Education: Higher education plays a key role in the development of any country, state or region. The chance of economic growth of any state is as good as the pool of their skilled people. No plan of economic development can succeed without skilled people, as economic development depends a lot on the quality of resources they have.

Higher education also helps in shaping the future of people as skilled people not only get good employment opportunities they also create employment for other as well. Skill development program has helped people to become self-reliant and financially independent. Considering the importance of skill development the IQAC of college decided to organised a self-financed one national conference on Skill Development in Higher Education: Issues & Challenges on 09.03-2019. University of Agriculture Science Dharwad Vice Chancellor Dr.M.B.Chetti was the chief Guest. Dr.Nagesh R.Iyer Dean, IIT Dharwad was the keynote Speaker. Dr.Gopinath, Dean SDMCET, Dr.F.M.Nadaf from Goa were the Resources Persons. 100 Research papers were published in E-Journal with ISSN.

ONE DAY NATIONAL CONFERENCE

ON

"SKILL DEVELOPMENT IN HIGHER EDUCATION
 ISSUES AND CHALLENGES"

Date : 9th March 2019 Time : 10.00 a.m.
 Venue : Conference Hall

YOU ARE CORDIALLY INVITED

Dr. I. A. Mulla : Convener
 Dr. N. V. Gudaganavar : Org. Secretary
 Dr. N. M. Makandar : Conf. Coordinator
 Dr. M. N. Meeranik : Principal

INVITATION

DEAR SIR/MADAM,

Anjuman-e-Islam's Anjuman Arts, Science, Commerce College & P. G. Studies, Dharwad, invites you for one day national conference on "Skill Development in Higher Education: Issues and Challenges" which is to be held on 9th March 2019.

ABOUT THE COLLEGE

Anjuman-e-Islam, Dharwad, Founded in 1914, is playing a key role in academic and socio-economic upliftment of underprivileged and minorities. It has several institutes imparting education from pre primary to post graduate level, along with BBA, BCA, PGDCA and D.Ed.

Our college is affiliated to Karnatak University, managed by the Anjuman-e-Islam, Dharwad, Re-accredited with B Grade by NAAC. The college take genuine pride in having successfully completed 32 years. It is situated in the heart of the city with all facilities. Our college has been serving for the cause of education of minorities and economically and socially backward communities. Our main motto is to provide integrated education which includes mental, intellectual, physical, moral, ethical, aesthetic and spiritual education, we also strive hard to bring excellence in curricular and extra-curricular activities by providing qualitative education to the students without any discrimination.

ABOUT CONFERENCE

Education is the key to human resource development and a vehicle for economic growth of a country. But without a support skill for employment or vocational work, the appropriate utility of education cannot be done. Employers are increasingly finding it difficult to find employable youth, even though there are enough educated unemployed.

Delivering quality education is critical for

holistic development of a Nation and is a key enabler for ensuring inclusive and sustainable development. Expanding access to higher education, skill development a Nation's competitiveness in the global economy and peoples Socio-Economic development.

Globalization, Knowledge and Competition have intensified the need for highly skilled workforce in both the developing and developed Nations as it enables them to accelerate the growth rate of their economy towards higher trajectory. Today all economic need skilled workforce so as to meet global standards of quality to increase their foreign trade, to bring advanced technologies to their domestic industries and to boost their industrial and economic development. Thus, skills and knowledge becomes the major driving force of socio-economic growth and development of any country. As it has been observed that countries with highly skilled human capital tend to have higher GDP and per capita income levels and they adjust more effectively to the challenges and opportunities of the world of work.

Skill development is an important area of concern in our educational system. Now-a-days growth of the society depends upon skill development in various areas. So we can say that when skills enter the premises of higher education, institution must be directed properly. Keeping in mind the need of the hour we have organized One Day National level conference on "Skill Development in Higher Educational Issues and Challenges".

SUB THEME OF CONFERENCE

1. Role of ICT for soft skill development.
2. Reforms in Higher education.
3. Skill development in 21st Century.
4. Challenges and opportunities for skill development in higher Education.
