

Eco Club

Eco club has been constituted in under the supervision of Dr.M.N.Meeranaik Associate Professor of Geography and Principal of the College. The mission of the eco club is "Go Green initiative" to raise the students' "interest" over environmental issues and to get the students actively involved in environmental matters. The club also seeks to conserve nature's heritage by education and direct conservation efforts to spread awareness about good environmental practices like for a ban on plastic, proper dumping of garbage, planting of trees etc. within Anjuman Arts Science, Commerce College & PG Studies Dharwad.

The main aim of establishing the Eco Club was to conserve the natural resources and the natural environment to create Eco friendly environment and create awareness of biodiversity conservation and local environmental issues and to create a clean and green consciousness among students through various innovative methods. The Main motive of the Eco Club is to nurture and teach the importance of environment to students.

Primary Objectives

1. To maintain cleanliness in and around the campus.
2. To bring the Awareness on Climate Change.
3. Create and propagate awareness of environment conservation through direct participation.
4. To organise awareness programs such as seminars, debates, essay, painting lectures and popular talks on environmental issues in the college.
5. To create pollution free environment

Activities

The Eco Club under the guidance of the IQAC has adopted the following measures in its effort to institutionalize its environmental policy:

1. The Eco Club has collaborated with the Swachh Bharat Mission team in the college to accomplish the greening of the campus, the segregation of dry and wet waste, the minimizing of the use of plastic, putting up appropriate signage for the edification of students, and dedicated water filter (Aquaguard), and the renovation and modernization of the washrooms for the students.
2. The institution has switched over largely to LED appliances to cut down on energy consumption.
3. Because of the lack of space in the college campus multiple plants in single pots have been introduced
4. A Green Audit of the college has been conducted by the certified Auditor
5. The IQAC further engaged with the Alumnae Association of the college to obtain and install a 10 KW Solar Rooftop PV Grid Connection Energy System that is fully funded by the Anjuman Alumni Association.
6. The institution has a method of e-waste disposal in place whereby it sells its discarded electronic items to a firm, recycles electronic gadgets and paper as far as possible
7. Regular programmes are held in the college to make the students aware of environmental concerns.
8. Organise rallies, marches, human chains and street theatre at public places with a view to spread environmental awareness.
