TEACHING PLAN FOR THE ACADEMIC YEAR 2020-21

Month Wise Teaching Plan for the year 2020-21

Programme: B.A. V Semester
Course/Paper Name: ECONOMIC GEOGRAPHY OF THE WORLD
Name of the Faculty: Dr. I. A. Mulla, Associate Professor

Unit	Title	Particulars of Discussion	Schedule for Teaching	Hrs
I	Economic Geography: An introduction	Definition, Scope and Nature of economic Geography	17-11-2020	10
		Approaches, Recent trends in Economic Geography		20
II	Physical Aspects and Natural Regions of the world	Physiographic divisions, Drainage, Climate and Natural Vegetation, Mountains, plateaus, plain	to 03-03-2021	05
				3
III	Agriculture	Types of farming: Shifting cultivation, Subsistence and Commercial farming		

Subject Incharge: Dr. I. A. Mulla

Head, Dept. of Geography,
Anjuman Arts, Science & Commerce College
Dharwad-580001.

Principal

TEACHING PLAN FOR THE ACADEMIC YEAR 2020-21

Month Wise Teaching Plan for the year 2020-21

Programme: B.A. III Semester
Course/Paper Name: REGIONAL GEOGRAPHY OF KARNATAKA
Name of the Faculty: Dr. I. A. Mulla, Associate Professor

Unit	Title	Particulars of Discussion	Schedule for Teaching	Hrs
I	Physical Aspects	Location, Size, Extent		16
		Physiographic divisions		
		Climate, Rivers, Soils and Vegetation		
II	Agriculture and River Valley Projects	River Valley Projects: Krishna, Malaprabha, Ghataprabha, Tunga Bhadra and Cauvery Rivers	13-11-2020 To 01-03-2021	22
		River Water Dispute: Cauvery, Krishna and KalasaBanduri		
		Irrigation: Sources and Types		
		Types of Agriculture		
		Cultivation, Distribution and Production of major Crops: Food crops: Paddy, Ragi, Jowar and Wheat. Commercial crops: Cotton, Sugar Cane, Tobacco, Chilli. Horticulture Crops: Coffee and Tea		
III	Transportation	Patterns of Road and Railway, Ports and Harbours		05

Subject Incharge: Dr. I. A. Mulla

Head, Dept. of Geography
Anjuman Arts, Science & Commerce College

Business Economics

Chapter title	Particulars of discussion	Scheduled for teaching	Total hours
Unit-I Introduction	Meaning, definition, nature, features and scope and objectives of business economics; relationship with other subjects; uses role and responsibilities of business economists; fundamental principles of business economics- opportunity cost, incremental, time, discounting and equi-marginal.	Second week of September to Second week of November	16
Unit –II Demand Analysis	Meaning and determinants of demand; law of demand, Individual demand; Law of demand, demand curve income effect and substitution effect; exceptions; market demand; elasticity of demand- meaning and kinds; types of price elasticity ; factors determining; uses and measurement; income, cross and promotional elasticity of demand; demand forecasting – meaning and methods- trend projection and least square method.	Third week of November to Second week of December	16
Unit –III Supply Analysis	Supply function; law of supply; determinants of supply, change in supply v/s change in quantity supplied; exception elasticity of supply; market equilibrium of supply concept of consumer's surplus	Third week of December to Second week of January	16
Unit IV production Analysis	Meaning, and types of production function; linear, power, quadratic and Cobb-Douglas production function, business uses of production function- short run and long run; law of variable proportion; laws of returns to scale; economies and diseconomies of scale; impact of change in technology on production function.	Third week of January to Second week of February	16
Unit V: Cost Analysis	Meaning of Cost and classification; money and real costs; explicit and implicit costs; cost output relationship in the short run- TFC, TVC, TC,AFC, AVC,AC, and marginal cost, long run cost-long run cost curves; linear and quadratic cost function.	Third week of February to First week of March	12

Monetary Economics

Chapter title	Particulars of discussion	Scheduled for teaching	Total hours
Unit-I Introduction:	Meaning and definitions of Money, Functions- Static and dynamic functions of money. Origin of money, types of money, physical properties of money. Supply of money- M1, M2, M3, and M4.	Second week of September to Second week of November	16
Unit –II Value of money	Meaning and theories of Value of money. Measurement of value of money. Cash balance equation and Cash Transaction equation. Inflation- meaning, causes, Effects and remedies, Inflation and economic growth.	Third week of November to Second week of December	16
Unit –III Money Market	Meaning, Constituents and participants, money market V/S capital market, money market instruments, Indian money market-features, working, intermediaries, trends and defects, Regulation of money market operation.	Third week of December to Second week of January	16
Unit IV Banking:	Meaning and types, functions of a modern banking, liquidity and profitability, process of credit creation and its limitation, interest rates- meaning and types-real and nominal, effects of inflation and taxes on interest rates, liberalization of interest rates in India.	Third week of January to Second week of February	16
Unit V: Central Bank	Meaning and functions, RBI-establishment, Management and function, Monetary policy-objectives, features and types, monetary policy instruments-bank rate, Repo and reserve repo rates. SLR and CRR, open market operations	Third week of February to First week of March	12

Indian Economy

Chapter title	Particulars of discussion	Scheduled for teaching	Total hours
Unit-I India: Developing economy; .	Structure of Indian economy- agriculture, industry and service sectors; economic growth and economic development; Indicators of economic development; major problems of Indian economy- poverty, inequalities; unemployment, population, transportation and other infra structural problems; economic reforms since 1990s- reasons and effects of liberalization policies on Indian economy.	Second week of September to Second week of November	16
Unit II: National income	Meaning and concepts of national income-GDP, GNP, NNP; trends in size and Composition of national income of India; measurements methods, uses and difficulties of measurement; per capita income meaning, importance and measurement.	Third week of November to Second week of December	16
Unit-III Demographic Profile of India	Size, density, rate of growth of population; Sex ratio; recent population policy; economic effects of rapidly growing population; changes in occupational structure; unemployment- extent and measurement; rural and urban migration.	Third week of December to Second week of January	16
Unit IV: Economic Planning	Objectives, types, approaches, achievements and failures of economic planning in India; models of economic planning; tenth and eleventh five year plans	Third week of January to First week of February	12
Unit V Agriculture in India	Trends in Agriculture production; causes for low production and productivity; Green Revolution-II-Food security and self-sufficiency; New Agriculture Strategy-New Agricultural policy 2000; Agricultural finance-institutional and non-institutional; agricultural marketing- problems; agricultural pricing policy.	Second week of February to First week of March	16

Managerial Economics II

Chapter title	Particulars of discussion	Scheduled for teaching	Total hours
Price output Decisions-I	Perfect competition-meaning features and Determination of price; Key lessons of Perfect competition for managers; Monopoly. Meaning features, types and causes; price output determination; price discrimination- meaning objectives, degrees and conditions for price discrimination.	Third week of May to first week June.	12
Chapter II Price output Decisions-II	Monopolistic competition-meaning, features, product differentiation Price-output determination; selling cost, Pricing in practice. Oligopoly. Meaning, and features; kinked demand curve-reasons and effects; oligopoly and non-price competition; price leadership- meaning features, reasons and advantages of price leadership.	Second week of June to Last week of June	12
Chapter III Pricing policies:	Meaning and objectives of pricing policy; methods of pricing cost and competition methods; pricing over life cycle of a product; pricing of a new product- Skimming, penetration pricing; other concepts of pricing- dual pricing, Administered pricing, transfer and Resale price maintenance.	Second week of June to First week of July	16
Chapter IV Profit Management	Meaning, functions and Theories of profit. Profiteering v/s profit earning; Accounting v/s economic profit, Profit policies- profit maximization meaning, assumptions and objections; alternate profit policies.	Second week of July to Fourth week of July	12
Chapter V: Business cycles	Meaning Phases; effects and minimizing the effects of business cycles- Preventive measures and relief measures.	First week of July to Second week of July.	08

NAME OF THE STAFF: DR. F. H. NADAF
HEAD DEPT. OF STATISTICS

Class	Title of the chapter	Particulars of the Discussion	Schedule of teaching	Total hours
B. A. I	Measures of Central Tendency	Meaning of central tendency and essentials of a good measures of central tendency. Types of measures of central tendency: Arithmetic mean, Median, Mode, Geometric mean and Harmonic mean – definition, merits and demerits. Properties of arithmetic mean, Empirical relation between mean, median and mode. Problems on both grouped and Ungrouped data for all the measures.	15 th Dec.2020 To 31 st Jan. 2021	10
		Partition values- definition and types of partition values: quartiles, deciles and percentiles. Problems on Quartiles for grouped and ungrouped data only.		05
	Diagrammatic and Graphical Representation of data	Diagrams: Meaning, importance of diagrams and general rules of construction of diagrams. Types of Diagrams – simple, multiple, component, percentage bar diagrams and pie-diagrams with simple illustrations. Graphs: Types of graphs- Histogram, frequency polygon, frequency curve, Ogives, simple problems, location of mode, median and partition values from the graphs. Difference between diagrams and graphs. curves of less than type and more than type, simple computations w. r. t. graphs studied.	1 st Feb. To 15 th Feb.2021	10

B.A.III	Skewness and Kurtosis	Definition, objectives and types of skewness, explanation of positive and negative skewness with diagrams, Measures of skewness-Karl Pearson's coefficient of skewness and Bowley's coefficient of skewness, Simple examples. Kurtosis: Definition and types of Kurtosis. Explanation of kurtosis with neat diagrams. Measures of skewness based on moments. Difference between skewness and kurtosis	16 th Feb. To 28 th Feb.2021	05
	Binomial distribution	Definition of a Binomial variate and its probability distribution, Examples for binomial distribution, situations under which binomial distribution arises, statement of mean, mode, variance, skewness and Kurtosis, limiting distribution, simple examples on binomial distribution, fitting of a binomial distribution.	15 th Dec.2020 To 31 st Jan. 2021	10
	Poisson distribution	Definition of a Poisson variate and its probability distribution, Examples for poisson distribution, situation under which poisson distribution arises, statement of mean, mode, variance, skewness and kurtosis, limiting distribution, simple examples on poisson distribution, fitting of a poisson distribution.	1 st Feb. 2020 To 15 th Feb. 2021	10
	Normal distribution	Definition of a normal variate and its probability density function, Definition of a standard normal variate, Conditions for existence of a normal distribution as a limiting case of binomial distribution & poisson distribution, statement of mean, median, mode, quartile deviation, mean deviation, variance, skewness and kurtosis, and other properties of a normal distribution, simple examples on normal distribution, idea of a standard normal variate tables, computation of probabilities using standard normal variate tables, simple examples, importance of a normal distribution.	16 th Jan. To 28 th 2021	10

B.A.V	National Population Census	Definition of Population census, Essential features of the Census, Utility of Census, and Methods of conducting population census; De-facto method and De-jure method, comparative study of these two methods, merits and demerits, methods of enumeration; Household method Canvasser method, Mailed questionnaire method.	3 rd Nov. to 30 th Nov. 2020	08
	Indian Official Statistics	Indian Statistical system at present, Statistical organizations in India, Statistical organizations at the centre, Central statistical organization (CSO), functions of CSO, Publications of CSO, National Sample Survey Organization (NSSO), functions of NSSO, Statistical organizations in the state.	1 st Dec. to 15 th Dec. 2020	07
	Government and Non-Government Statistical Organizations	Different central ministries and the major statistical organizations held by them, Directorate of Economics and Statistics, functions of DES, publications of the DES, The various Non-Governmental statistical organization, the functions of Indian Statistical Institute, Calcutta, The Indian Council of Agricultural Research (ICAR), Department of Statistics, Reserve Bank of India. India statistical material: agricultural statistics, population statistics, price statistics, Industrial, Trade, Financial and Labour Statistics.	16 th Dec. to 31 st Dec. 2020	05
	Demography	Sources of demographic data, Measurement of Fertility: Fecundity, fertility, measurement of fertility, crude birth rate, general fertility rate, age specific fertility rate and total fertility rates, merits and demerits of each measure of fertility, comparative study of these measures of fertility, comparative study of these measures of fertility, Growth rates, reproduction rates, gross reproduction rate and net reproduction rates, their definition, distinctions, merits and demerits, numerical problems on these measures.	1 st Jan. to 31 st Jan.2021	10

B.Com.III		Measurement of mortality: crude death rate, specific death rates and standardized death rates, infant mortality rate, maternal mortality rate, neo natal mortality rates, merits and demerits and comparisons of various mortality rates, numerical problems on these measures.	1 st Jan. to 15 st Feb.2021	05
	Life tables	Components of a life table, force of mortality and expectation of life, construction of life tables, relationship between various components of a life table, Appropriate formulae for components, Abridged life tables, Uses of life tables, Numerical problems for construction life tables with missing entries.	16 th Feb. to 28 th Feb. 2021	05
	Meaning of central tendency	Meaning of central tendency and measures of central tendency, Ideal characteristics for a measures for a measures of central tendency, Definition, Formulae of arithmetic mean, geometric mean, harmonic mean, median and mode for ungrouped data, and grouped data, Partition values, quartiles, deciles and percentiles formulae, merits and demerits of various measures of central university.	3 rd Nov. To 31 st Dec. 2020	15
	Diagrammatic and Graphical Presentation	Diagrammatic Presentation of Data: One dimensional diagrams, simple, component, multiple, percentage, deviation bar diagrams, two dimensional diagrams; rectangles, pie diagram. Rules for drawing diagrams, Graphical presentation of a frequency distribution: Histogram, frequency polygon, frequency curve, O-give curves of less than type and more than type, simple computations w. r. t. graphs studied.	1 st Jan. To 31 st Jan.2021	10
	Skewness and Kurtosis	Definition, objectives and types of skewness, explanation of positive and negative skewness with diagrams, Measures of skewness-Karl Pearson's coefficient of skewness and Bowley's coefficient of skewness, Simple examples. Kurtosis:Definition and types of Kurtosis .Explanation of kurtosis with neat digrams. Measures of skewness based on moments.	16 th Feb. To 28 th Feb.2021	05

		Difference between skewness and kurtosis		
B.Com.III	Logarithms	Logarithms, Antilogarithms and uses.	1 st Dec. to 31 th Dec. 2020	08
	Installment Buying	Installment buying	1 st Jan. To 31 st Jan. 2021	08
	Work and time	Work and Time, problems	1 st Feb. to 28 th Feb.2021	05
